

Arizona Report of Public Agency Performance on Evaluation Timelines

Indicator 11: Evaluation Timelines

Percent of children with parental consent to evaluate who were evaluated within 60 days (initial evaluations only) or State-established timeline.

Measurement

The data are taken from the ADE/ESS monitoring results and reflect the status of each agency at the time of the on-site monitoring. The timeline is measured from the date of signed parental consent to the date of the determination of eligibility. Arizona rules allow for a 30-day extension of the 60 days if it is in the best interest of the child and the parents and the school agree.

Explanation of Indicator

The data reported below indicate the percentage of students whose initial evaluations were completed within 60 days of parental consent. PEAs that were not in compliance with the requirement at the time of the monitoring are required to demonstrate compliance within one year of the monitoring.

State Target for SY 2007-2008: This indicator is considered a compliance indicator by the U.S. Department of Education and the State target must be 100%.

PEA	PEA Results by Percentage	State Target Met?
Agua Fria Union School District	100	Yes
